A Notable Collection

Pancoast's English Prose and Verse

From Beowulf to Stevenson

By HENRY S. PANCOAST

816 pp. 8vo. \$1.75

This is a collection of readings intended to supplement a general course on the history of English literature. The author's previous books of readings—*Early English Poems*, *Standard English Poems*, and *Standard English Prose*—have been used as the basis for the present volume, but a large number of new selections have been added, while others, especially in the period before Chaucer, have been omitted. The notes, which have been placed at the bottom of the page, have been made as brief and as simple as possible.

The book aims to represent the more important authors, from Chaucer down, by suitable or typical selections, as fully as the space will allow. But the more important writers, especially those of the Victorian period, as they are nearer to the sympathy and interest of the student, have been given a relatively larger space. Besides this, an effort has been made to give fresh selections which shall be both historically significant and interesting in themselves.

The selections from the Old and Middle English period are translated or modernized; in rendering the poetry the endeavor has been to preserve the poetic form, as well as the meaning and spirit of the original.

There are about 750 selections in the book, the space given to prose and poetry being nearly equal. The number of authors represented is about 225.

William Shakespeare

Born April 23, 1564

Died April 23, 1616

1916

Shakespeare died three hundred years ago, but today the VICTOR brings back the long forgotten music of Shakespeare and his time to the world.

The ballads, "Airs" and dances of the days of good Queen Bess live again for us through Victor Records, which have been made in anticipation of the Nation-wide observance of the tercentenary of the "Bard of Avon."

Nowhere else can you obtain the real old English country dances, gathered by Mr. Cecil Sharp, nor the songs from all the plays, carefully reproduced from the oldest authentic versions, with suitable instrumentation and the proper voice for the part in the play.

For Pageants, Festivals, Masques, any Play of Shakespeare, or A Shakespeare Day, you will find here abundant material for your needs.

Sandwick's How to Study and What to Study

A PRACTICAL book for high-school pupils. It presents in a clear and usable form the most successful methods by which lessons may be learned and correct habits of study formed. The first half of the book is devoted to general principles, and the latter half makes definite application to the essential high-school subjects.

The chapters are well adapted for use in connection with the first-year work in English.

Cloth. 175 pages. Price, 60 cents

High School and Class Management

By HORACE A. HOLLISTER

Professor of Education and High-School Visitor at the University of Illinois

COMBINES with the most modern theories of high-school management and teaching technique the results of much practical observation. In each of the above aspects of its treatment it deals with fundamental principles. Among the topics of immediate general interest dealt with are the junior high school, vocational guidance, supervised study, teaching how to study, high-school extension, and the school as a community.

Part I treats of the evolution and definition of the high school. Part II discusses the general management of the high school. Part III is devoted to class management and the technique of teaching, and contains chapters upon the teaching of each of the fundamental subjects of high-school instruction.

Cloth. xvi + 314 pages. Price, \$1.25
